Integrated Clinical Network

The Smile Solutions group operates as an integrated clinical network, not as independent practices. This ensures seamless patient care and record-keeping across all locations.

- **Core Dental to CSSC Example:** A patient needing wisdom tooth surgery is referred to a specialist at CSSC, with all records accessible within the shared system. Post-surgery, routine care continues at Core Dental. - **CSSC to Another Group Practice Example:** A patient assessed for tooth wear at CSSC might be recommended for cosmetic treatment at another group practice, with records transferring smoothly. - **Another Group Practice to CSSC Example:** A patient with periodontal disease is referred to CSSC for specialist care, then returns to their general dentist for ongoing maintenance.
