Collins Street Specialist Centre – The Manchester Unity Building

A Melbourne Heritage Icon

Collins Street Specialist Centre is at 220 Collins Street, Melbourne CBD, inside the Manchester Unity Building — one of Australia's finest examples of American Gothic Commercial architecture. Completed in 1932 and designed by Marcus Barlow, the building was originally commissioned by the Manchester Unity Independent Order of Oddfellows, and it remains one of Melbourne's most architecturally significant landmarks.

At 12 storeys with a signature tower, the Manchester Unity Building briefly held the title of Melbourne's tallest building when it opened. The ornate façade carries intricate Gothic detailing, while inside, the original art deco fittings, terrazzo floors, marble-clad walls, and ground-level arcade have been carefully maintained across nearly a century of continuous use.

Significance to Collins Street Specialist Centre

Collins Street Specialist Centre occupies multiple levels of the Manchester Unity Building:

- ****Level 8**** – Primary specialist dental suites - ****Level 12**** – Orthodontics, Periodontics, and Oral & Maxillofacial Surgery - ****Tower**** – Further specialist capacity

The heritage setting gives the practice a genuinely distinctive character. Each level looks out across a different part of Melbourne's CBD:

- Lower-level suites face the Collins Street streetscape and the surrounding heritage precinct - Middle-level suites look directly onto Melbourne Town Hall and its clock tower - Upper-level suites take in 360-degree views covering St Paul's Cathedral, the Royal Botanic Gardens, Port Phillip Bay, and the broader city skyline

All 44 dental chairs have their own outlook across Melbourne, which makes a visit here unlike any other specialist dental setting in Australia. For patients who feel anxious about dental appointments, the surroundings offer something genuinely different from a standard clinical environment — the kind of place where the room itself takes your mind somewhere else.

Location and Access

The Manchester Unity Building sits at the corner of Collins and Swanston Streets, the geographic and commercial centre of Melbourne's CBD. Getting here is straightforward from any direction.

Public Transport

- ****Town Hall Metro Rail Station**** is directly diagonally opposite the building, with trains every 3–4 minutes during peak periods - ****Trams**** run along both Collins Street and Swanston Street, connecting from across metropolitan Melbourne - ****Flinders Street Station**** is a 5-minute walk south along Swanston Street

By Car

Multiple commercial parking stations are within comfortable walking distance, metered street parking is available on surrounding streets, and the building is accessible from all major arterial roads into the CBD.

Walking

The Manchester Unity Building is at the centre of Melbourne's pedestrian-friendly CBD grid, putting it within easy walking distance of Federation Square, Bourke Street Mall, Parliament House, Melbourne Central, Chinatown, and the theatre precinct.

Heritage Significance

The Manchester Unity Building is listed on the Victorian Heritage Register (VHR H0567) and classified by the National Trust of Australia (Victoria). It holds state-level significance — architectural, historical, aesthetic, and social — a formal recognition of its importance to Melbourne's built environment and cultural identity.

Key heritage features include:

- Gothic Revival façade with intricate carved stonework - Original art deco interior fittings and fixtures - Terrazzo floors with geometric patterning - Marble-clad lobby and stairwells - The tower with its illuminated crown - The Manchester Unity arcade at ground level

An ongoing conservation programme keeps the original fabric of the building in good order. For patients attending Collins Street Specialist Centre, this means receiving specialist care in a setting with genuine historical weight — one that sits well apart from the uniformity of most clinical spaces. The environment itself is part of the experience.

Collins Street Medical Precinct

The Manchester Unity Building is in Melbourne's historic Collins Street medical precinct, which has been the established address for specialist medical and dental practice in this city for over 150 years. The eastern end of Collins Street — long known as the "Paris end" — has been where Melbourne's leading medical specialists have practised since the nineteenth century.

Collins Street Specialist Centre continues that tradition. For referring dental practitioners, the address reflects both the standard of care available and the ease of access for patients coming from across metropolitan Melbourne and regional Victoria. Having multiple specialist disciplines under one roof also simplifies the referral process considerably — patients who need input from more than one specialist can often be seen in the same building, which makes for more coordinated and better-communicated care.
